Description	Newly developed glue units with two separate tanks for side and spine glue application, together with the new side glue application system using rollers, provide exceptional binding quality. The BQ-480 is a compact machine suitable for professional finishing in medium-sized production plants. The machine is equipped with a tank for PUR glue. Robust book trimmer of classic design, suitable for in-line and off-line production. Format setup for book feeding through the machine is carried out from the colour touchscreen, and the machine’s internal memory offers 200 memory locations for storing jobs. The machine allows processing of books with variable thickness. The HT-80 is designed for medium to heavy-duty operation, with a maximum output of 1000 cycles per hour.
