Who needs the iJetColor Pro?

1. A volume printer who produces 100,000+ envelopes per month
2. A production printer replacing press line
3. Needs speeds of 7,100 envelopes an hour for max output of 100,000 envelopes a month
4. Has an existing production press or multiple benchtop devices (usually toner)
5. Any Direct Mail printer
6. Wants flexibility to run wide range of products

What's Different?

- Speeds over 7,120 impressions/hr
  - Fastest light-industrial, short-run inkjet envelope press on the market.
- Feed size up to 14" wide x 17" long and up to 1" thick
  - Variable media handling for broad application usage.
- High capacity hopper and shingler
  - Capacity for large batch fulfillment.

KEY POINTS

The iJetColor Pro brings the fastest full-color, full-bleed capabilities at a fraction of a penny-per-piece to high volume printers for short-run work.

- Fastest light-industrial, short-run inkjet envelope press on the market.
- Application capabilities for media between 2"x3.5" and 14"x17" and as thick as 1".
- First production-class printer to use a highly reliable vacuum conveyor.
- Fully bundled with fast variable-data processing and PMS Color-Matching Workflow.
