Description	High speed, combination creasing & folding line. User friendly, single operator, standalone machines that are run in tandem to crease and fold digitally printed, heavy weight or cross-grained stock. Features: Morgana AutoCreaser Pro 33: Uses a unique creasing rule and matrix system to prevent cracking & tearing. 7″ 'SmartScreen' touch screen controls all main functions. Automatically calculates where the creases need to be and sets them accordingly. Alpha-numeric memory allows an unlimited number of jobs to be stored. 'PosiFeed' feed system allows product to be piled higher and able to feed difficult stocks. Morgana AutoFold Pro: Can be aligned to Morgana AutoCreaser Pro to give perfectly folded results on a wide range of both digitally or litho printed stocks. It is simply wheeled up to the creaser and the height of its vacuum feed conveyor is adjusted to the exit height of the creaser. The same 7″ SmartScreen, instructs on length of pre-creased sheet and which fold to produce. Alpha-numeric memory allows an unlimited number of jobs to be stored. Crease & fold without cracking, Flying knife technology prevents scuffing and marking on digital stocks.
