Offer 385074

NORDSON XNO 992.I (PREMELTER SPINE GLUING UNIT) from 2012

Bookbinding Components

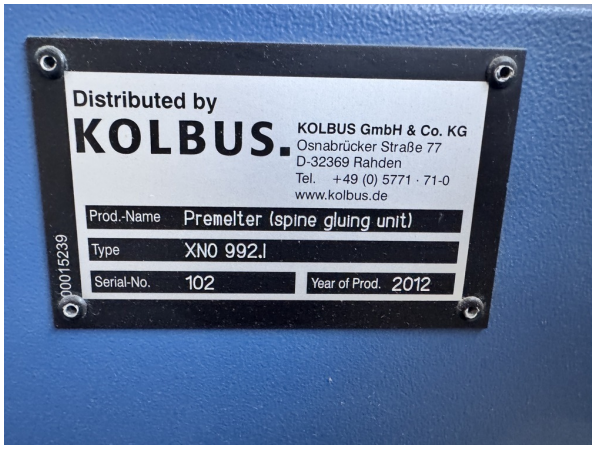

Offer Details

Offer Number	385074
Brand	NORDSON
Model	XNO 992.I (Premelter spine gluing unit)
Manufacturer	NORDSON
Condition	Good
Year	2012
Incoterm	Free Carrier
Cylinders Condition	
Under Power	No
Still in production	No
Test possible	No
Complete and in working condition	Yes
Availability	end of 11-2026
Counter	
Machine number	
Description	specialized PUR (Polyurethane) glue premelter system used in high-volume, professional bookbinding production lines. • PUR Spine Gluing: It serves as the primary pre-melting and delivery station for Polyurethane reactive hot melt adhesives, which are utilized for premium, highly durable book spine binding. • System Integration: It provides the base flow infrastructure for the 2nd spine glue system option on industrial softcover and hardcover binding lines. • Thermal Management: It operates in tandem with heated pressure hoses (typically measuring up to 7,200 mm) to maintain the strict temperature controls required to keep PUR from curing prematurely during the feeding process

PRICE: EUR 15.000 FCA
