Machine number	
Description	<p>The Mobi 360 will process wires from the small 1/4" up to the large 1 1/4" in both 3:1 and 2:1 pitches. Simple adjustment to the machine means no additional tools are needed to change wire sizes.</p> <p>The Mobi 360 is on wheels therefore giving the flexibility for the machine to be easily stored away when not in production. The machine is single phase and does not require compressed air to operate.</p> <p>Touch pad make ready allows for rapid format changes</p> <p>No special training needed</p> <p>Short set up times using motorised changeover process binding length: max. 360 mm</p> <p>Fully equipped for working with 12 wire diameters- 1/4" - 1 1/4"(no extra tools needed) electrical connection 230 V, single phase, 50 cycles</p> <p>No compressed air required</p> <p>Prepunched products are hand-inserted, then automatically transported into the closing station, closed and ejected.</p>

Technical details

Binding tools	3:1, 2:1
Mech. speed	1.000 cycles/h.
Machine weight	675 kg
