Description	For the front (foreedge) cutting of perfect bound and thread sewn soft cover books (without flaps device). Can be integrated in or off-line, and used either before or after the three knife trimmer (4th cut) and when not in use the unit can be simply used as a conveyor. Very quick size change of approx. 3 mins through simple keying in of book parameters. Front trim using a steel knife against a plastic cutting stick. Motorised delivery table. Single button push transforms the unit into a regular conveyor belt so no divert or extra conveyor necessary.
