Description

Like new condition never used!

6x pieces InkLine plus XL CAN

HDM-no: FS.196.0002/03

Article-no: 951.05.0009

Serial-no: GS 1036815

2 kg valve cartridges (with plastic or cardboard walls)

- Original technotrans valve insert as direct ink.line

- Power supply

24 VDC \pm 10 %, max. 600 mA

- Working pressure

max. 6,5 bar

Eliminates time-consuming tin handling

- Saves costs for ink, waste and disposal

- No manual checking and refilling

- More stable printing processes in less time

- Quicker ink changes

- More printing - less cleaning

- Optional use of an ink agitator for highly viscous inks

Fully automatic ink supply solution based on 2 kg ink cartridges. With the ink.line system, users can reduce their operating costs, waste and ink consumption.

With an optional valve insert, the ink.line unit can be transformed into a direct ink.line system: The extended system combines the use of a central ink supply system with 2 kg ink cartridges. Ink can be supplied as required either through the pipes of the central ink supply system or via the cartridge. As a result, the direct ink.line system offers outstanding flexibility for a wide range of conditions.

PRICE: EUR 8.500 FCA
